

IN THE CLAIMS:

Claim 1 (Currently amended) A boater's keychain, comprising:

a keychain; and

at least one planar information card connected to said keychain, said at least one planar information card having at least one side imprinted with information, wherein said at least one planar information card includes a grommet through a portion of said at least one planar information card, and said keychain is threaded through said grommet.

Claim 2 (Original) The boater's keychain of Claim 1, wherein said at least one planar information card is formed of a waterproof, buoyant sheet material.

Claim 3 (Currently amended) The boater's keychain of Claim 1, wherein ~~said at least one planar information card includes a grommet through a portion of said at least one planar information card, and said keychain comprises a closeable metal keychain threaded through said grommet.~~

Claim 4 (Currently amended) The boater's keychain of Claim 1, wherein said at least one planar information card is formed of a closed cell foam plastic sheet material.

Claim 5 (Original) The boater's keychain of Claim 1, wherein said at least one information card comprises a plurality of planar information cards.

Claim 6 (Original) The boater's keychain of Claim 5, wherein each of said planar information cards has two opposing sides imprinted with information.

Claim 7 (Original) The boater's keychain of Claim 5, wherein each of said plurality of planar information cards includes a grommet through a portion of said planar information cards, and said keychain comprises a closeable metal keychain threaded through said grommets to link said keychain and said plurality of planar information cards together.

Claim 8 (Currently amended) A boater's keychain, comprising:
a keychain; and

a plurality of planar information cards connected to said keychain, said plurality of planar information cards having at least one side imprinted with information, wherein each of said plurality of planar information cards includes a grommet through a portion of said plurality of planar information cards, and said keychain is threaded through said grommets to link said keychain and said plurality of planar information cards together.

Claim 9 (Original) The boater's keychain of Claim 8, wherein said plurality of planar information cards are formed of a waterproof, buoyant sheet material.

Claim 10 (Currently amended) The boater's keychain of Claim 8, wherein ~~each of said plurality of planar information cards includes a grommet through a portion of said plurality of planar information cards, and said keychain comprises a closeable metal keychain threaded through said grommets to link said keychain and said plurality of planar information cards together.~~

Claim 11 (Original) The boater's keychain of Claim 8, wherein said plurality of planar information cards are formed of a closed cell foam neoprene sheet material.

Claim 12 (Original) The boater's keychain of Claim 8, wherein each of said planar information cards has two opposing sides imprinted with information.
